- ✓ MADE IN USA

The Only Square Powered By Air

From the inventors and original manufacturers of the Vacuum Elevator comes the next evolution in home accessibility, The Cube. Revolutionizing how people and goods are transported vertically inside their homes, Pneumatic Vacuum Elevators, LLC (PVE) is an innovative, technology-driven company that has remained on the forefront of Pneumatic Technology® since the company was founded in 2002. Headquartered in Miami, Florida, USA, PVE utilizes materials and components of the highest quality and is proud to manufacture safe, reliable, and eco-friendly home elevators for use worldwide.

Residential Elevator Designed For 2-Story Homes

Proudly manufactured in the U.S.A and available for purchase worldwide, The Cube is an affordable and easy-to-install home elevator solution that requires much less space, energy and maintenance than other through-floor lifts.

Symbol For Mobility and Simplicity

A versatile residential elevator solution that fits into even the tightest of spaces, The Cube is where design and technology coincide to produce a stylish, energy efficient home elevator at a competitive value.

Space-Saving, Panoramic Design

Incorporating a symmetrical design with 360 ° degree visibility, The Cube is built to optimize space and increase comfort while remaining an elegant addition for any retro-fit or new construction project.

- ✓ **2-Story Home Elevator:** Custom Built To Travel Up To 20 Feet In Total Rise
- ✓ **Modest Footprint:** 36" x 36" Inch Exterior Dimension
- ✓ **Certified For 2 Passengers:** Transport Walkers, Luggage, Boxes & Groceries

Quick & Easy Installation

Without a pre-construction shaft, pit or machine room required, The Cube offers a faster, more flexible installation as the self-supporting home elevator simply rests on the existing ground floor of any residence.

Eco-Friendly Technology

The only air-driven residential elevator incorporating a square design, The Cube utilizes Pneumatic Technology® to generate lift by smoothly moving the cabin up and down by air suction and gravity.

- ✓ **Plug & Play Operation:** Installations Completed In 1-2 Days
- ✓ **Minimal Maintenance:** No Harmful Oils, Gases or Lubricants Required
- ✓ **Cleanest Technology On The Market:** Home Elevators Powered By Air!
